Name
Sola Salon Capitol Mall

Location
Sacramento, CA

Completion Date
September 2012

The Team

HVAC Contractor
New Century Air Systems
Rancho Cordova, CA

HVAC Distributor
Johnstone Supply

Fujitsu Equipment

- (18) ASU9RLS2 Wall Mounts
- (18) AOU9RLS2 Condensing Units
- (7) ASU12RLS2 Wall Mounts
- (7) AOU12RLS2 Condensing Units
- (6) AUU12RLF Compact Cassettes
- (2) AOU36RLXFZ Condensing Units

A Cool Salon

24 Suites in a 3,300 square foot space in the ground floor of the 26 story US Bank Building.

Design Challenge

To satisfy the individual heating and cooling demands in 24 individual suites within a 3,300 square foot space with limited options for equipment locations.

Solution

The Fujitsu systems provided:

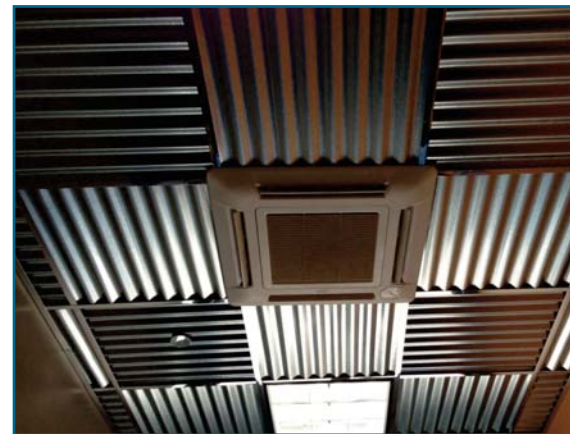

- Individual control of heating and cooling (not simultaneously)
- Efficiency
- Size of system

Results

The Fujitsu system satisfied the happy hair dressers (tenants), managers and owners.

25 Wall mount systems and 2 multi-zone systems connected to 6 compact cassettes provide heating and cooling to 24 individual suites.

“I wish we had Fujitsu mini-splits in all of our Sola Salon locations.”
