Fujitsu's new wall-mounted Halcyon systems

Fujitsu has introduced the 18RLXFWH, 24RLXFWH and 30RLXEH single zone wall mount Halcyon heat pump systems in 18,000, 24,000 and 30,000 BTU/h sizes with extended line set lengths, and efficient heating operation with ambient temperatures as low as -15°F.

The ENERGY STAR®-qualified units are designed to serve single rooms and – with extended line set lengths up to 165 feet for 18/24RLXFWH and 246 feet for 30RLXEH – they will help solve a wide variety of renovation or construction challenges.

Also, the base freeze protection feature makes extra low temperature heating possible with a standard heater pre-installed. It prevents condensate drainage from freezing.
